

(h) *Applicable credits.* Applicable credits are those receipts or reductions of expenditures which operate to offset or reduce expense items that are allocable to grant awards as direct or indirect costs. Applicable credits include, but are not limited to, purchase discounts, rebates or allowances, recoveries or indemnities on losses, insurance refunds, and adjustments of overpayments or erroneous charges. To the extent that such credits relate to allowable costs, they shall be credited as a cost reduction or cash refund in the same fund to which the related costs are charged.

(i) *Guidance.* The Circulars of the Office of Management and Budget shall provide guidance for all allowable cost questions arising under this part when relevant policies or criteria therein are not inconsistent with the provisions of the Act, applicable appropriations law, this part, the Accounting Guide for LSC Recipients, Corporation rules, regulations, guidelines, instructions, and other applicable law.

#### § 1630.4 Burden of proof.

The recipient shall have the burden of proof under this part.

#### § 1630.5 Costs requiring Corporation prior approval.

(a) *Advance understandings.* Under any given grant award, the reasonableness and allocability of certain cost items may be difficult to determine. In order to avoid subsequent disallowance or dispute based on unreasonableness or nonallocability, recipients may seek a written understanding from the Corporation in advance of incurring special or unusual costs. If a recipient elects not to seek an advance understanding from the Corporation, the absence of an advance understanding on any element of a cost does not affect the reasonableness or allocability of the cost.

(b) *Prior approvals.* Without prior written approval of the Corporation, no cost attributable to any of the following may be charged to Corporation funds:

(1) Pre-award costs and costs incurred after the cessation of funding;

(2) Purchases and leases of equipment, furniture, or other personal, non-expendable property, if the current purchase price of any individual item of property exceeds \$10,000;

(3) Purchases of real property; and

(4) Capital expenditures exceeding \$10,000 to improve real property.

(c) *Duration.* The Corporation's approval or advance understanding shall be valid for one year, or for a greater period of time which the Corporation may specify in its approval or understanding.

#### § 1630.6 Timetable and basis for granting prior approval.

(a) The Corporation shall grant prior approval of a cost if the recipient has provided sufficient written information to demonstrate that the cost would be consistent with the standards and policies of this part. If the Corporation denies a request for approval, it shall provide to the recipient a written explanation of the grounds for denying the request.

(b) Except as provided in paragraphs (c) and (d) of this section, the Corporation may not assert the absence of prior approval as a basis for disallowing a questioned cost, if the Corporation has not responded to a written request for approval within sixty (60) days of receiving the request.

(c) If additional information is necessary to enable the Corporation to respond to a request for prior approval, the Corporation may make a written request for additional information within forty-five (45) days of receiving the request for approval.

(d) If the Corporation has made a written request for additional information about a cost as provided by paragraph (c) of this section, and if the Corporation has not responded within thirty (30) days of receiving in writing all additional, requested information, the Corporation may not assert the absence of prior approval as a basis for disallowing the cost.

#### § 1630.7 Review of questioned costs and appeal of disallowed costs.

(a) When the Office of Inspector General, the General Accounting Office, or an independent auditor or other audit organization authorized to conduct an

audit of a recipient has identified and referred a questioned cost to the Corporation, Corporation management shall review the findings of the Office of Inspector General, General Accounting Office, or independent auditor or other authorized audit organization, as well as the recipient's written response to the findings, in order to determine accurately the amount of the questioned cost, the factual circumstances giving rise to the cost, and the legal basis for disallowing the cost. Corporation management may also identify questioned costs in the course of its oversight of recipients.

(b) If Corporation management determines that there is a basis for disallowing a questioned cost, and if not more than five years have elapsed since the recipient incurred the cost, Corporation management shall provide to the recipient written notice of its intent to disallow the cost. The written notice shall state the amount of the cost and the factual and legal basis for disallowing it.

(c) Within thirty (30) days of receiving written notice of the Corporation's intent to disallow the questioned cost, the recipient may respond with written evidence and argument to show that the cost was allowable, or that the Corporation, for equitable, practical, or other reasons, should not recover all or part of the amount, or that the recovery should be made in installments. If the recipient does not respond to the Corporation's written notice, Corporation management shall issue a management decision on the basis of information available to it.

(d) Within sixty (60) days of receiving the recipient's written response to the notice of intent to disallow the questioned cost, Corporation management shall issue a management decision stating whether or not the cost has been disallowed, the reasons for the decision, and the method of appeal as provided in this section.

(1) If Corporation management has determined that the questioned cost should be allowed, and that no corrective action by the recipient is necessary, final action with respect to the questioned cost occurs at the time when the Corporation issues the management decision.

(2) If Corporation management has determined that the questioned cost should be disallowed, the management decision shall also describe the expected recipient action to repay the cost, including the method and schedule for collection of the amount of the cost. The management decision may also require the recipient to make financial adjustments or take other corrective action to prevent a recurrence of the circumstances giving rise to the disallowed cost.

(e) If the amount of a disallowed cost exceeds \$2,500, the recipient may appeal in writing to the Corporation President within thirty (30) days of receiving the Corporation's management decision to disallow the cost. The written appeal should state in detail the reasons why the Corporation should not disallow part or all of the questioned cost. If the amount of a disallowed cost does not exceed \$2,500, or if the recipient elects not to appeal the disallowance of a cost in excess of \$2,500, the Corporation's management decision shall be final.

(f) Within thirty (30) days of receipt of the recipient's appeal of a disallowed cost in excess of \$2,500, the President shall either adopt, modify, or reverse the Corporation's management decision to disallow the cost. If the President has had prior involvement in the consideration of the disallowed cost, the President shall designate another senior Corporation employee who has not had prior involvement to review the recipient's appeal. The President shall also have discretion, in circumstances where the President has not had prior involvement in the disallowed cost, to designate another senior Corporation employee to review the recipient's appeal, provided that the senior Corporation employee has not had prior involvement in the disallowed cost.

(g) The decision of the President or designee shall be final and shall be based on the written record, consisting of the Corporation's notice of intent to disallow the questioned cost, the recipient's response, the management decision, the recipient's written appeal, any additional response or analysis provided to the President or designee by Corporation staff, and the relevant

findings, if any, of the Office of Inspector General, General Accounting Office, or other authorized auditor or audit organization. Upon request, the Corporation shall provide a copy of the written record to the recipient.

### § 1630.8 Recovery of disallowed costs and other corrective action.

(a) The Corporation shall recover any disallowed costs from the recipient within the time limits and conditions set forth in the Corporation's management decision. Recovery of the disallowed costs may be in the form of a reduction in the amount of future grant checks or in the form of direct payment from the recipient to the Corporation.

(b) The Corporation shall ensure that a recipient which has incurred a disallowed cost takes any additional, necessary corrective action within the time limits and conditions set forth in the Corporation's management decision. The recipient shall have taken final action when the recipient has repaid all disallowed costs and has taken all corrective action which the Corporation has stated in its management decision is necessary to prevent the recurrence of circumstances giving rise to a questioned cost.

(c) In the event of an appeal of the Corporation's management decision, the decision of the President or designee shall supersede the Corporation's management decision, and the recipient shall repay any disallowed costs and take necessary corrective action according to the terms and conditions of the decision of the President or designee.

### § 1630.9 Other remedies; effect on other parts.

(a) In cases of serious financial mismanagement, fraud, or defalcation of funds, the Corporation shall refer the matter to the Office of Inspector General, and may take appropriate action pursuant to parts 1606, 1623, 1625, and 1640 of this chapter.

(b) The recovery of a disallowed cost according to the procedures of this part does not constitute a permanent reduction in the annualized funding level of the recipient, nor does it constitute a termination of financial assistance

under part 1606, a suspension of funding under part 1623, or a denial of refunding under part 1625.

### § 1630.10 Applicability to subgrants.

When disallowed costs arise from expenditures incurred under a subgrant of Corporation funds, the recipient and the subrecipient will be jointly and severally responsible for the actions of the subrecipient, as provided by 45 CFR part 1627, and will be subject to all remedies available under this part. Both the recipient and the subrecipient shall have access to the review and appeal procedures of this part.

### § 1630.11 Applicability to non-LSC funds.

(a) No costs attributable to a purpose prohibited by the LSC Act, as defined by 45 CFR 1610.2(a), may be charged to private funds, except for tribal funds used for the specific purposes for which they were provided. No cost attributable to an activity prohibited by or inconsistent with section 504, as defined by 45 CFR 1610.2(b), may be charged to non-LSC funds, except for tribal funds used for the specific purposes for which they were provided.

(b) According to the review and appeal procedures of 45 CFR 1630.7, the Corporation may recover from a recipient's Corporation funds an amount not to exceed the amount improperly charged to non-LSC funds.

### § 1630.12 Applicability to derivative income.

(a) Derivative income resulting from an activity supported in whole or in part with funds provided by the Corporation shall be allocated to the fund in which the recipient's LSC grant is recorded in the same proportion that the amount of Corporation funds expended bears to the total amount expended by the recipient to support the activity.

(b) Derivative income which is allocated to the LSC fund in accordance with paragraph (a) of this section is subject to the requirements of this part, including the requirement of 45 CFR 1630.3(a)(4) that expenditures of such funds be in compliance with the Act, applicable appropriations law,
